6 Emmy® awards  
**WINNER**

# NETFLIX SQUID GAME

A story of people who fail at life for various reasons, but suddenly receive a mysterious invitation to participate in a survival game to win more than **38 million US dollars**. The game takes place on an isolated island and the participants are locked up until there is a final winner.

The story incorporates popular **Korean children's games** from the 1970s and 1980s, such as squid game, the literal translation of its Korean name, which is a type of tag where offense and defense use a squid-shaped board drawn in the dirt.

# LA CASA DE PAPEL

A mysterious character, who calls himself "The Professor", is planning the biggest heist ever devised. To carry out his ambitious plan, he recruits a gang made up of people with certain qualities and one thing in common: they have nothing to lose. The objective is to rob the **Fábrica Nacional de Moneda y Timbre**, with the intention of being locked inside with a very specific mission: not to steal money, but to create it. After five months of confinement, memorising every step, every detail, every probability... the day finally arrives. Eleven days of confinement await them in the Mint, surrounded by the elite police forces and with 67 hostages in their possession.
